

## A surgical facility built around your comfort.

A private, purpose-built outpatient surgery centre in Toronto — combining hospital-grade operating suites with the calm, considered experience you deserve on the day of your procedure.

Every detail of the **Toronto Outpatient Surgery Centre** was designed with the patient in mind — from the moment you are dropped at the door to the quiet hours of your recovery. Modern operating suites, a dedicated recovery team, and private overnight care, all under one roof in the heart of the city.

## What to expect on your surgery day

You will be welcomed at a private reception, away from the pace of a hospital. Your procedure takes place in one of three modern operating suites, staffed by an experienced surgical and anaesthetic team.

Afterward, you recover in a dedicated space monitored by our nursing team — with private overnight suites available should you or your surgeon prefer you stay close. When you are ready to leave, dedicated on-site parking makes drop-off and pick-up simple for whoever is bringing you home.

- **Downtown convenience.** Central Toronto location with on-site parking.
- **Surgeon-led care.** Every procedure is performed by an experienced, fully-qualified surgical team.
- **Privacy throughout.** A calm, discreet environment from arrival to discharge.
